35 South Park
Flash Developer
April 2008 – Current

I've spent the past 2+ years working as a Flash Developer at R/GA in the New York & San Francisco offices. I've worked on various accounts including Verizon, NikeStore.com, NIKEiD.com, & Sunglass Hut, to name a few. I've been on the Nike account since February, when I transferred to San Francisco from New York. Many of the sites involve e-commerce, so I have experience using web-services, building dynamic applications, & meeting tight deadlines.
